

### SAVE OUR FUTURE

Beloved Earth Community of Riverside Church

In This Issue

## HERE IS THE PROBLEM...

Despite the climate crisis, our biggest banks are huge funders of coal and gas and oil companies. In the years since the Paris climate accords, they have given more than a trillion dollars in loans to these companies, even as scientists have told us we must stop the expansion of this industry.

Turns out that which banks we choose to put our money in can outweigh all our other efforts to reduce our carbon footprint. So it's time to take the Banking On Our Future Pledge and two other Action Steps listed on the back to let the banks know they must change.

#### THREE ACTION STEPS...

1. Take the Banking On Our Future Pledge (one pledge for current account holders, one pledge for non-account holders):

#### The Pledge:

If by March 21, 2023 Bank of America, Chase, Citibank or Wells Fargo are still funding climate-destroying fossil fuel projects, I pledge to close my account and cut up my credit/debit card.

If I don't bank at these institutions now or use their cards, I pledge I won't do so in the future.

- 2. Write a letter to your bank by Dec. 31, 2022, politely telling them that the time has come to stop lending money to fossil fuel companies, period.
- **3.** If that doesn't work, and banks keep engaging in greenwashing, (check <u>thirdact.org</u> website), then ALL OF US participating in this campaign, ACTING TOGETHER, will move our money and close our credit/debit card accounts ON THE SAME DAY, MARCH 21, 2023.

For Steps #2 and #3, you will find wonderful, extensive resources to help you at <a href="mailto:thirdact.org/our-work/banking-on-our-future/">thirdact.org/our-work/banking-on-our-future/</a>.

Click on the Toolkit, and go to Section VII," Write Letters to the Banks and Bank Managers," for sample letters, and to Section X, "Resources including better banks and credit card options." There you will find ratings of banks and numerous eco-friendly credit cards.

# EASY NEW ORLEANS STYLE VEGAN GUMBO (GLUTEN-FREE)

This New Orleans Style Vegan Gumbo is easy and delicious to make! It is gluten-free and full of delicious and hearty ingredients!

You can find the recipe here: https://thefreshfig.com/easy-neworleans-vegan-gumbo/

#### **Beloved Earth Community**

We call Riversiders to protest the climate crisis and care for the Earth through educational programs, greening the church, changing our lifestyles, and courageous political actions.
