

(1) TO CONTACT YOUR REPRESENTATIVES IN CONGRESS:

<https://www.congress.gov/contact-us>

Enter your address and zip code into the box which says “Find your member by address” and click. The office location and phone numbers for your Senators and your Representative will appear. To get their email addresses, click on their name (underlined), and then click again on “Contact”, and you can send them an email directly from the page.

To contact President Biden: (202) 456-1111, email: president@whitehouse.gov.
U.S. mail address: 1600 Pennsylvania Avenue NW, Washington, DC 20500

(2) SAMPLE EMAIL/LETTER FOR MEMBERS OF CONGRESS:

Dear Representative _____ or Senator _____:

The UN climate change panel, in its most recent warning on the need for action on climate, has made clear how desperate our situation is. Recent climate disasters across the world, not least those here in the US this summer, are a stark reminder of what is to come unless we take meaningful action without delay.

I am appealing to you to please accept your responsibility as an elected representative and give your full support to two climate bills pending before Congress. First, the bipartisan infrastructure bill helps address the effects of climate change on our roads, bridges and transit systems. Even more crucial is the second or budget reconciliation bill which seeks to address the causes of climate change. Provisions in this second bill must be made as strong and targeted as possible in order to stop the further buildup of greenhouse gases. The lives of all of us and of our children and children’s children depend on action like this.

Thank you,

[your name, address, and email address]
